

Dear Hotel Customer,

As we are soon about to enter a new year we would like to take the opportunity to reflect back on some interesting things that happened during the year as well as let you in on some of the very exciting things about to take place next year.

We would like to thank you all for a wonderful year and wish you the best for 2008!

With best regards,

Sabina Sundberg

Expedia, laterooms, hotelzon and more direct connects!

myfidelio is now completing the installation of the XML direct connect with Expedia and Martins Hotels in Belgium will be the first customer using this connection. In January 2008 and onwards this direct connect will also be available for other hotel customers and we will soon be contacting you for more details on how to add your hotels to this new Expedia connection! And more to come; direct connections with laterooms.com, hotelzon.com and booking.com are being developed and will be launched in the first part of 2008.

mylink

We also introduced our multilingual online booking tool mylink, now with a completely new design! A design you have the option to customize yourself and give it a unique look and feel by changing the colour schemes, upload or replace images, etc.

And in order for your customers to see your Best Available Rates those are now shown in the availability calendar.

mylink is completely free of running charges (no reservation fee, no monthly fee) if you choose to integrate it with your PMS!

Have a look and get inspired by the below properties and their mylink setup;

Latest news!

* It is our pleasure to inform you that in 2007 we had an outstanding 99,7% seamless connection in the GDS!

* You can now easily maintain your Best Available Rates in myfidelio. This functionality was added previously in the very successful upgrade of myfidelio on the 25th of November.

* There are very attractive GDS marketing proposals available from Galileo and Sabre to promote your property for travel agents; 'Galileo Featured Property Promotion' and 'Sabre Surround' which can help you increase your GDS business!

* myfidelio.net is moving towards dynamic packaging! Micros-IX is the new booking mask which will add flights, services and destination information to your hotel bookings. More details about this will follow in our next newsletter...
